

HSW Double Breast Vaccinator

 henkesasswolf.de/en/veterinary/products/poultry-devices/hsw-double-breast-vaccinator

Automatic vaccinator (intramuscular) for chickens

Scope of delivery:

- Double Breast Vaccinator
- Electricity plugs
- Vial holder incl. extension
- Dripping chamber
- 2 syringes at 0.5ml (fixed dose)
- Breast plate for layers
- Breast plate for broilers
- Needles
- Spare part sets
- Measuring tool
- Lubrication oil
- Allen key
- Screw clamp
- Measuring cup

Home / Veterinary / Products / Poultry Devices / HSW Double Breast Vaccinator

- Electrically driven vaccination device
- LED Touch Screen
- Sophisticated sensors for proper positioning of chicken
- Safety functions such as: air bubble detection, early release warning, day counter, bottle counter and batch counter
- Several breast plates and syringe sizes

The electrically driven vaccinator enables a double vaccination into the breast muscle of commercial chicken. Due to a LED touchscreen guided chicken positioning, precise dosing syringes, several safety features as well as high-quality components an optimal and equal vaccination result can be achieved.

HSW Pneumatic Vaccinator

 henkesasswolf.de/en/veterinary/products/poultry-devices/hsw-pneumatic-vaccinator

Automatic vaccinator (subcutaneous) for day-old chicks

Scope of delivery:

- Pneumatic Vaccinator
- Vial holder
- Dripping chamber
- 1 syringe (adjustable) for Single version
- 2 syringes (adjustable) for Double version
- Measuring cup
- Needles
- Spare part sets
- Measuring tool
- Allen key
- Adapter for compressed air supply
- Tubing set

Home / Veterinary / Products / Poultry Devices / HSW Pneumatic Vaccinator

- Pneumatically driven device
- Double stroke cylinder for exceptional speed and highest dosing accuracy
- Adjustable trigger element
- Safety functions such as: compressed air regulation, automatic cleaning of trigger element, day and batch counter
- Click system for easy and reliable dose adjustment

The pneumatically driven vaccinator enables highest dosing accuracy for the vaccination of day-old chicks. Due to an adjustable trigger element, non-corrosive double stroke cylinders and high-quality components the device offers everything you need in the hatchery: fatigue-proof and continuous usage.

HSW Spray Cabinet

 henkesasswolf.de/en/veterinary/products/poultry-devices/hsw-spray-cabinet

Manual spray device for day-old chicks

Scope of delivery:

- Spray Cabinet
 - 10l Vaccine reservoir
 - Spray nozzle
 - Allen key
 - Lashing strap
 - Open end wrench (7mm/0,28")
 - Dosage Measuring Cup
 - Zipties
-

Areas of application:

Home / Veterinary / Products / Poultry Devices / HSW Spray Cabinet

- Manual spray device
- Even vaccine distribution onto day-old chicks via coarse spray method
- Suitable for coccidiosis and viral vaccine
- Very resistant and highest biosecurity due to stainless steel components
- 10 liter vaccine reservoir

FRESHLY HATCHED: **OUR NEW ELECTRICALLY DRIVEN DOUBLE BREAST VACCINATOR**

- Efficacy** optimal vaccination results thanks to a LED display guided chicken positioning
- Accurate** highest dosing accuracy due to an integrated plunger stroke control
- Simple** plug-and-play operation as no compressed air is needed
- User-friendly** various safety features such as release warning or air bubble detection to avoid false injections
- Smart** easy set-up, maintenance and cleaning procedures for long service life and highest biosecurity standards
- Resistant** robust medical grade components allow use with nearly every vaccine
- Versatile** injection of either one vaccine with one needle or two different vaccines with two needles
- Sophisticated** interchangeable breast mold for different types of chicken and age

Item No.:

8300048265 – HSW Double Breast Vaccinator

FRESHLY HATCHED: OUR NEW PNEUMATIC VACCINATOR FOR DAY-OLD CHICKS

Efficacy	adjustable trigger element for safe and consistent positioning of day-old chicks
Accurate	highest dosing accuracy due to reliable double-stroke cylinders and high-quality syringes
Sophisticated	perfectly shaped cover enables best injection angle for healthy day-old chicks
User-friendly	easy change of injection volume with only one syringe due to a patented click system
Smart	easy set-up, maintenance and cleaning procedures for long service life and highest biosecurity standards
Versatile	injection of either one or two different vaccines with only one needle
Resistant	robust and medical grade components allow use with nearly every vaccine

Item No.:

8300048263 – HSW Pneumatic Vaccinator Single

8300048264 – HSW Pneumatic Vaccinator Double

FRESHLY HATCHED: OUR NEW SPRAY CABINET FOR DAY-OLD CHICKS

- Efficacy** energy-independent manual application for continuous operation
- Accurate** perfect droplet size due to an unique spray nozzle ensures even distribution of viral and coccidiosis vaccine
- Sophisticated** airflow in the 10-liter reservoir prevents sedimentation of coccidiosis vaccine
- User-friendly** self-explanatory operation as well as robust splash guard for user's safety
- Smart** easy set-up, maintenance and cleaning procedures for long service life and highest biosecurity standards
- Versatile** variable spray volume adjustment to either 16 or 22ml and suitable for crate depth of 400, 450 and 500mm
- Resistant** high-quality stainless steel components allow use with nearly every vaccine

Item No.:

8300048266 – HSW Spray Cabinet
